

To whom it may concern,

In accordance with SkyTeam International's Data Recorder procedures, please acknowledge if you would like the data/audio downloaded from the component in reference. If you do NOT require the data/audio, please be advised that **the OEM recorder testing procedure will erase all existing data/audio on the unit when it is initialized.**

Air Carriers may also indicate if they prefer their unit returned without a ULB (Underwater Locating Beacon) attached.

Please answer the following questions and return this completed form to info@skyteam.cc. Thank you.

With respect to RO#: _____

1. Would you like the data/audio downloaded from the unit? (Additional charges apply)

YES ____ NO ____

2. If YES was answered above, would you like a data analysis report? (**Flight Data Recorder ONLY**. Additional charges vary depending on service requested.)

YES ____ NO ____

3. Would you like your unit returned WITHOUT the ULB attached? (**AIR CARRIERS ONLY**. ULB installation is MANDATORY per CMM without authorization from the operator.)

YES ____ NO ____
